

CONCIERGE EXECUTIVE PHYSICALS

Three tiers of *proactive health evaluation*, each going far beyond the standard physical to paint a complete, actionable picture of your health.

WELLCOMEMD

FEATURE

WELLNESS

ADVANCED

PREMIER

Physician Consultation

Unhurried, head-to-toe clinical evaluation with physician. Walk away with customized roadmap and proactive recommendations to optimize health and longevity.

Health Coach Session

Go beyond the scale with a precise look at visceral fat, muscle distribution, and cellular hydration. Get a custom-crafted nutrition and fitness strategy.

Global Lab Panel

Comprehensive baseline testing including cardiac markers, metabolic panel, full hormone panel & thyroid function.

EKG, Hearing & Vision In-clinic Diagnostics

Detect subtle changes early, ensuring optimal sensory health, clarity, and long-term cognitive vitality.

Coronary CT Angiography (CCTA)

High-definition, 3D visualization of your heart's arteries to identify plaque arterial health long before symptoms appear.

—

Genetic Test

Actionable 70-gene report covering fitness, nutrition, sleep, skin & methylation.

—

Food Sensitivity Assessment

Uncovers hidden triggers of digestive issues and chronic inflammation.

—

Cancer Screening

Multi-cancer early detection blood test screening 50+ cancer types from a single draw.

—

—

Hyperbaric Oxygen Therapy

Boost oxygenation, support cell regeneration, and reverse key markers of aging with our medical-grade hyperbaric chamber.
